

Name _____ Pd. _____

Human Body Expert Project- -15 points

This project will be due _____

Objective: You will need to share your knowledge of the structure and function of one of the body systems.

1. Choose a system _____
2. Research facts about the system using the textbook, articles and notes we have taken in class.
3. Fill out your graphic organizer.
4. Create an eye pleasing content rich mini-poster.

1. List the functions of this system in the body.	Function 1		Function 2	
2. List the important structures that make up this system. Give details about the parts. (At least 3)	Structure and description		Structure and Description	Structure and description
3. Choose one of the structures in the system. Explain how it helps with the systems function.	Structure	Function	Connection with function: How do the parts help do its job?	
4. Name a system that works with the system you are researching. Explain how the two systems work together.	System that it works with		Explanation: How do they work together?	

5. Choose an injury/illness that can happen to this system. Explain what is happening if you have this injury/illness. Be specific about what parts of the system are impacted.	Injury/Illness Name and Description	How will the body repair itself? What will be the effects of this illness on the body?
---	--	--

6. Graphics to Include: You should have two different images.

Each picture needs to be labeled or have a caption telling what the picture is showing.

Picture 1	Picture 2

Name _____ Pd. _____

Human Body Expert Project 15 points

Rubric

Title	/1
Function *Lists at least two functions of the system	/2
Structures *List at least three structures in the system and *Provides information about each structure	/3
Connects Structure and Function *Explains specifically how the parts help complete the job or function of the system	/2
Connects to another system *Explains in detail how the system works with another system *Give specific examples of the systems working together	/3
Injury/Illness *Explains the injury/illness *Explains how the body is impacted by this injury/illness *Explains how the body will repair itself	/3
Graphics *Two different images are included *Images are labeled with a caption or words	/2
Total Score	/15
