

ACIDS & BASES

Draw a pH scale with acidic, basic, and neutral properly labeled on it.

ACIDS & BASES

A substance that produces H^+ (hydronium) ions in water is a(n) acid.

ACIDS & BASES

A substance that produces OH^- (hydroxide) ions in water is a(n) base.

ACIDS & BASES

What color will an acid turn blue litmus paper?

red

ACIDS & BASES

Is water (H_2O) is an example of an acid, base, or neutral substance?

What is its pH?

7

ACIDS & BASES

What is the pH range for an acid?

D-6

ACIDS & BASES

What is the pH range for a base?

8-14

ACIDS & BASES

What color will a base turn red litmus paper?

blue

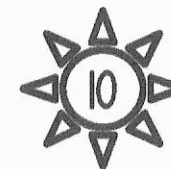

ACIDS & BASES

How could you neutralize an acid? (*Hint - think about what Tums do in your stomach*).

Indigestion tablet which is a base

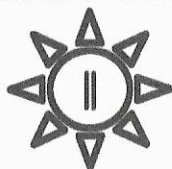

ACIDS & BASES

Give three examples of acids.

battery acid, stomach acid, and lemon juice

ACIDS & BASES

Give three examples of bases.

bleach, drain cleaner, and soap

ACIDS & BASES

What happens when ~~red~~ litmus paper is dipped into an acid?

red

ACIDS & BASES

What are two properties of an acid?

sur and certain Indicator compound

ACIDS & BASES

Give an example of an indicator that can be used to identify acids and bases.

Ph scale

ACIDS & BASES

The pH scale measures the concentration of _____ ions.

hydrogen

ACIDS & BASES

What happens when ~~blue~~ litmus paper is dipped into a base?

blue

ACIDS & BASES

What are two properties
of a base?

They are both better an it disingrates

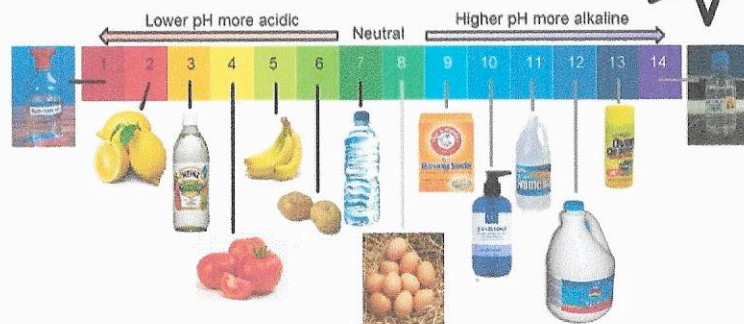

ACIDS & BASES

What do a tomato and
soda have in common?

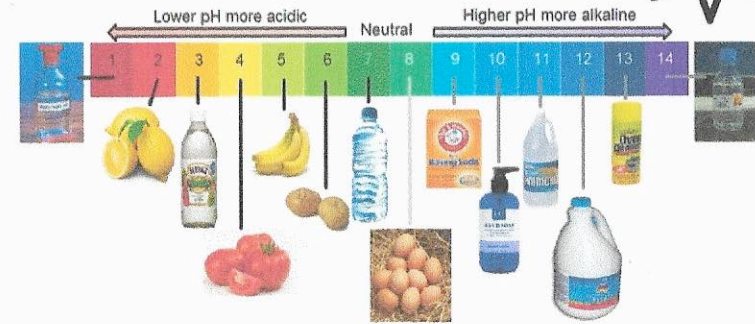

They are both acide

ACIDS & BASES

Which is more acidic, a banana
or a lemon?

ACIDS & BASES

Which is more basic, bleach or baking
soda?
