

Lesson 3 Skills Practice

Area of Composite Figures

$$A = lw = \text{length} \times \text{width}$$

$$A = \pi r^2 \quad 3.14 \times r \times r$$

Find the area of each figure. Round to the nearest tenth if necessary.

$$81 \text{ m}^2$$

$$302.13 \text{ yd}^2$$

$$154 \text{ cm}^2$$

$$21 \text{ ft}^2$$

Find the area of the shaded region.
