Please write at least two sentences for each question.

1. Which math topic do you feel is your best? Why?

Probability because we spent more time on that

2. Which math topic do you feel is your worst? Why?

the central meaning of tendency. i didn't really understand it

3. What two or three things would you change about our math class?
(You may not say "Too much homework." Sorry!)

Probably the days we learn a lesson and take notes and then the next day we go over what we did and start another lesson. They should give us more time to understand a lesson.

4. Which topics did we spend too much time on?

probability

5. Which topics did we spend too little time on?

probably the fundamental counting principle we only went over that one day and then the next day we did something else.

6. What are two or three things that you would suggest to improve our math class? Do you have any ideas that could make math class more interesting?

No not really i dont care how bad or good it is
just as long as i get a good grade

7. Do you have any other comments or suggestions for me?

nope
