To Whom It May Concern:

Jeff Morse was a tutor in the Yuba College Academic Skills Center for several semesters. In addition, he was one of the tutors selected to participate in a project that involved study groups for math students. As a study group tutor, Jeff was responsible for assisting a small of students in developing strong study skills appropriate to their math classes. Jeff was also involved in training a few new tutors in the area of group tutoring.

Jeff is well-liked by the students and his peers. I found him to be extremely cooperative and an excellent team player. He was a valuable asset to our tutoring program. Despite his enormous responsibilities that he had as student association president, he was a very dependable employee in the Academic Skills Center.

I recommend Mr. Morse for any teaching assistant or tutoring position. It has been a pleasure working with him, and I know he will be successful in his chosen field.

Sincerely,

James Prager

Academic Skills Center
