1 Verse

When Israel fled from Egypt's land God rescued them with His mighty hand  
A cloud that guided by day and a fire by night Pharaoh's army followed close behind  
But my God already had a plan in mind To drown the enemy and claim the victory  
The Israelites were terrified They were dismayed and so they cried  
Lord God have mercy and help us through this troubled sea  
Then they crossed upon dry ground In the morning they saw their enemy drown  
They began to dance and shout Hallelujah He brought us out

### Il Verse

I was oppressed with sin and fear I had decided that the end was near  
There was no one to hear my cry I was alone and left to die  
But then the Lord came into my cell He opened the doors and I could tell  
Those chains fell off of me Praise God He set me free

### III Verse

There have been times in my darkest nights I could not go to the left or right  
There was nothing left to do But to cry have mercy  
And when I doubted that He heard My God answered me with His Holy Word  
Lift up your hands and shout I'm gonna bring you out
