F#m 0

**F#m**                      **C#m/F#**                      **Bm/F#**  
This longing, You're drawing me so close  
**F#m**                      **C#m/F#**                      **Bm/F#**  
This hurting, You're burning up the dross  
**F#m**                      **C#m/F#**                      **Bm/F#**  
I hear You, I feel you wanting me  
**F#m**                      **C#m/F#**                      **Bm/F#**  
Waves crashing, deep calling unto deep

**D5**    **E5**  
I was made for love, I was made for bliss  
                         **F#m**  
Come and take me up, Fill me with Your kiss  
                         **D5**    **E5**  
I was made for one, To cling to evermore  
                         **F#m**  
I was made for love (and You're all I'm longing for)

**F#m**                      **C#m/F#**                      **Bm/F#**  
I'm setting my eyes upon this prize  
**F#m**                      **C#m/F#**                      **Bm/F#**  
I'm trading what's fading for eternal life

**Bsus**    **D2**  
I want to be everything You dreamed  
                         **A**  
when You saw my frame  
                         **Bsus**    **D2**  
I want to be everything You dreamed  
                         **A**  
when You called my name
